CEREMONY
DÉCOR

CEREMONY DÉCOR

Your ceremony is one of the most special moments of your wedding day so why not have your décor reflect that. When it comes to ceremony décor there are so many options to choose from; petal scatter or lanterns? Candles or blossom trees? Pew décor or vases? And what about the registrars table?!

So here are some things to consider when deciding how to decorate your ceremony:

- Is it in keeping with your chosen theme?
- Can it be re-used later at the Wedding reception?
- How wide is your aisle and can it accommodate the desired décor?
- How long do you want your aisle to be and how much décor would you need?
- If you'd like to use a Chuppah (Jewish ceremony), Mandap (Indian ceremony) or archway, would you also like to use a stage to elevate the ceremony?

These are all things that we are more than happy to advise you on and find the best solution to make sure your special day looks exactly how you dreamed it.

Still stuck for ideas? Let's have a look at how some other weddings decorated their ceremonies. And remember, if you still don't see something you like, we can create something bespoke, tailored to your exact requirements.

- Petal scatter and Floral Arrangements
- Vases and Lanterns
- Blossom Trees & Chandeliers
- Asian Wedding Stages, Mandaps, Chuppahs & Archways plus many more

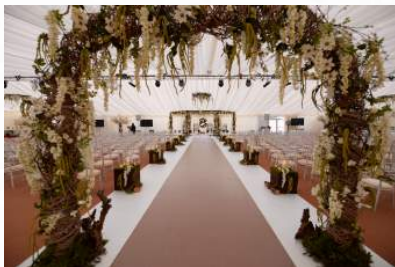

TABLE CENTREPIECES

TABLE CENTREPIECES

Do you want low floral arrangements? Crystal table chandeliers? Or the classic candelabra? Whether you've got six or sixty tables to dress, the possibilities and range of table centres are endless. So where should you start?

Here are some things to consider when deciding how to dress your tables:

- Is it in keeping with your chosen theme?
- How do you feel about using two or three different table centres? For example with a vintage theme, a combination of our blossom trees and our large birdcages on alternate tables work perfectly together to add depth and variety to the rooms décor.
- Does the base of the centrepiece need dressing? If so, how? With a floral arrangement? Diamante or petal scatter? Or with an array of t lights?
- If it's a wedding you're planning, how would you like to dress the top table? The cake table? And any poseur tables at the drinks reception?

Here's some examples of how we have dressed tables in the past. And remember we can create something bespoke, tailored to your exact requirements.

- Table standing Chandeliers, Blossom Trees, Grace centrepiece
- Candelabras
- Vases with various types of arrangements in silk or fresh flowers
- Themed table décor
- Birdcages
- Bespoke Décor
- & many more!

LINEN & CHAIR
STYLING

LINEN & CHAIR STYLING

There's so many options when it comes to deciding on what linen to use at your event. You could go for classic table and chair linen if you think it would best compliment the rest of your decor or use it as an opportunity to add an extra sparkle to your event with something exciting like our sequin linens.

First decide on what fabric, colour and style you'd prefer for your event. Opting for white or black linen and then adding coloured table runners and chair sashes to suit your colour scheme is always a great option especially with large scale corporate functions and parties. If you're looking for something a little more special then perhaps a ruffle chair back or sequined table cloths might be more up your street.

Here's some examples of how we've used linen and chair styling at events in the past:

A close-up photograph of a dining table setting. In the foreground, a gold-colored plate with concentric circular ridges holds a single, vibrant red rose. The rose is the central focus, with its petals tightly packed. The background is softly blurred, showing a glass of red wine, a vase with red berries, and other glassware, creating a warm and elegant atmosphere. The word "TABLEWARE" is printed in white, bold, uppercase letters across the center of the rose.

CEILING DÉCOR & DRAPING

Ceiling décor is a really impressive way of transforming an event space. From chandeliers and draping to festoon lighting and bunting there's a multitude of stunning ways in which you can decorate a ceiling. Starcloths and room draping are also an elegant way of transforming a room. The starcloths, that run fibre optic LED lights through draping, are particularly good for providing a beautiful sparkling backdrop to wedding ceremonies, marquee walls/ceilings and stages.

Obviously though not all ceiling décor is feasible in every venue, but this is something we are more than capable of helping you with to find the best solution or an alternative that you're happy with! Here's some examples of ceiling décor that we have designed, created, and installed for previous clients.
